

Each work in *iiNtsika zeSizwe*, has been named after a significant woman from Zizipho Poswa's home village of Holela. The titles have been formed by blending the Xhosa term 'Mam', meaning mother, and the respective name of each honoured woman.

Mam'uNoNezi/e is titled after a neighbour and matriarch from Poswa's village. The woman - Mama uNoNezile - is a local farmer, breadwinner, and single mother to her family. The work's abstract form represents an amalgam of different loads. These abstracted fruits and vegetables are symbolic of both nourishment and maternal abundance.
